

Antara believes the best way to see South Asia is from the river.

What began in 2003 as a dream for travel industry pioneer and naturalist Raj Singh, has today turned into Antara's thoughtfully designed, well-appointed fleet of ships that sail South Asia's most iconic rivers. Our philosophy is to bring the region's environments, wildlife and cultures to the world, sustainably, and with renowned hospitality in ships that are designed with thought, luxury and care.

Antara cruises encompass the Ganga, the Padma and the Brahmaputra River systems to make the world's longest river cruise. In 2023, Antara will start sailing the four rivers that inundate Bhitarkanika National Park, in Odisha, India's second-largest mangrove forest.
